Please address the trash email issue!!!!!!! A person or organization should not have the right to send me unsolicited or pornographic emails any more than they have the right to fax them to me. My email address is my private address, not public domain, and it has become impossible to receive legitimate correspondence with the hundreds of pieces of trash that get emailed each day. I am rarely an advocate of legislation to solve most problems, but I do not understand why the laws protecting privacy on mail, phone calls and faxes are not extended to email.
