

Tulsa Federal
Credit Union

June 26, 2009

To Whom It May Concern:

I am writing in regards to the S.A.F.E Act. I currently work for Tulsa Federal Credit Union and after reading and being informed about the Act, I am not sure of the purpose that giving out my personal information would provide. I also find it very unnecessary and I strongly disagree that all employees who process 1st or 2nd mortgage loans have to be registered.

Tulsa Federal Credit Union has our own Federal regulators and outside auditors that audit us every year. TFCU has developed a mortgage program that has been making these loans for over 30 years and is yet to be questioned by our regulators.

The request for my personal information and the personal information of my employees' seems to contradict the Privacy Act. I dont see how knowing my personal information will help our members, I thought that this Act was meant for mortgage brokers and others that received commissioned compensation for originating and/or closing mortgage loans.

One of my main concerns with this Act is what will be done with my information once I have provided it? Will it be disposed of properly or will it remain on the internet, for everyone to have access to? I would like to suggest using a hotline or an e-mail for such matters. If a background check is necessary, I would prefer my employer to conduct it and report the results. I have nothing to hide, but I extremely disagree with my information being put on the internet.

I appreciate your time and would appreciate your review of this situation.

Respectfully,

Rachel Graham
