I would agree that the Privacy statements should be standardized and simple to read. However, I disagree in the way they are used by most companies. All clients information should be confidential unless you give them permission to release. In many of the privacy statements I receive personally they make it difficult for you to opt out. You have to fill out a form and mail it back at your own expense. I believe the law intended for our information to be private unless you have the client's permission to release.
